When it comes to educational and pretend games, the name Toca Boca needs to be discussed there. They are the ones who have a very good reputation in the gaming industry and especially when it comes to educational games as well. This time they made an amazing hob again. They have made several titles that have a very good reputation and a very good position in the industry, but this one takes its expertise to a whole new and amazing level. If you remember the game known as Toca Lab: Elements, this game takes the theme of this game to a whole new and amazing level. This time you have the lab in your own hands, and you're the one who has control over everyone and everyone in this lab. A tone of amazing and various interesting plants awaits you in the game. If you like plants then you will love this game and if you are interested in laboratories etc. You are going to choose your plants in the first place in the game. And after you choose from a ton of different and amazing plants, you will spend your time with this plant learning about this plant and learning about the environment, etc. From the early stages of the plant to larger plants and even trees, you have all the things to observe about this plant. All you have to do is just download and install this amazing APK and you're good to go. Features of Toca Lab: Plants APK: There are many crazy tools waiting for you to use in this game. From irrigation to advanced crossing, all these things are in your hands. This game gives you some very decent and amazing graphics to enjoy. Toca Lab: Plants - оьюрная илра, которая продолжает серию проектов Тоса Воса, направленх на раввитие спосоности детей. В ней игроку предлагается выращивать растения. В распоряжении маленького пользователя имеются несколько инструментов, которые способствуют выращиванию представителей флоры и получению семян. Первым цветком, нуждающимся в уходе в юного садовода, будет зубастая лилия. Полив ее или подкормив удобрениями, игрок вскоре получит первое семечко. Также в наличии имеются аппараты. Здесь можно задействовать ультрафиолетовую лампу, аквариумы и аппарат, способный клонировать. Но не все растения следует подвергать действию определенных инструментов. Поэтому нужно экспериментировать и подбирать оптимальные условия содержания для каждого подопечного. Toca Lab: Plants - отличная обучающая илра для реленка, имеющая красивую графику и воспитывающая любовь к растительным видам. Она обязательно понравится своей целевой аудитории. Установка илр и пролграмм Установка илр с кэшем Как сделать скриншот V 1.1.1. 2018 57.8MB V 1.1 June 27, 2018 57.7MB V 1.0 Jan 09, 2018 55.1MB As with the first application in toca lab series, TocaLab:Elements, your curiosity will be at the forefront. Choose a plant, then visit five different places in the laboratory: • Light growth: Shine a light on the plant and watch what happens! Will your plant bask and sigh happily in the light, or is it twisting and twisting? What happens when you light up a notch or two? • Watering: Put the plant in the tank and fill it with water. Will your plant swim? How does your plant behave when it's wet? • Nutrition station: What is the optimal diet for your plant? Try different nutritional formulas to see which one they like! • Cloning machine: Spin the wheel on this machine and before you get to it you will have five little versions of your race. I wonder what clones can do? Experiment to find out! • Cross device: Here you can mix two plants to create something unexpected. Try it and see what happened! Have fun experimenting at each station to see how plants evolve. Continue experimenting until you have collected all 35 plant characters in the application. Once you have gathered the plant, continue to work to continue developing it! Who says kids can't be a scientist? Toca Lab: Plants brings promising botanical experiments to everyone! PROPERTIES - Start with one plant and experiment with 35 different plant features, each with its own unique personality! - Continue the development of existing plants through experimentation! - Develop plants with five laboratory tools: growlight, irrigation tank, nutrition station, cloning machine, and more.
